

# 1ch PHASE CUT LEADING or TRAILING EDGE DIMMABLE LED Drivers Constant Voltage

## PWM OUTPUT

- Supports Push Dim operation.

### 1-24VDC

| Model          | Supply Voltage        | Output Voltage | Max Output Power | Max Output Current | Dimming Range | Control                                      |
|----------------|-----------------------|----------------|------------------|--------------------|---------------|--|
| <b>PCK.505</b> | 200-240VAC<br>50/60Hz | 1-24VDC        | 150W             | 6.25A              | 1-100%        | Dimming with Trailing or Leading Edge Dimmer |
| <b>PCK.520</b> | 200-240VAC<br>50/60Hz | 1-24VDC        | 75W              | 3.12A              | 1-100%        | Dimming with Trailing or Leading Edge Dimmer |
| <b>PCK.521</b> | 200-240VAC<br>50/60Hz | 1-24VDC        | 36W              | 1.50A              | 1-100%        | Dimming with Trailing or Leading Edge Dimmer |

### 1-12VDC

| Model          | Supply Voltage        | Output Voltage | Max Output Power | Max Output Current | Dimming Range | Control                                      |
|----------------|-----------------------|----------------|------------------|--------------------|---------------|--|
| <b>PCK.349</b> | 200-240VAC<br>50/60Hz | 1-12VDC        | 150W             | 12.50A             | 1-100%        | Dimming with Trailing or Leading Edge Dimmer |
| <b>PCK.350</b> | 200-240VAC<br>50/60Hz | 1-12VDC        | 75W              | 6.25A              | 1-100%        | Dimming with Trailing or Leading Edge Dimmer |
| <b>PCK.351</b> | 200-240VAC<br>50/60Hz | 1-12VDC        | 36W              | 3A                 | 1-100%        | Dimming with Trailing or Leading Edge Dimmer |
