Make the connection

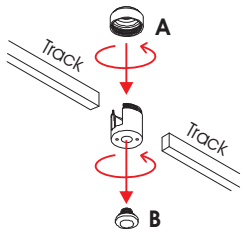

4.1
Place part C & D back on and tighten it carefully by rotating clockwise only upper parts

Installation of 2 tracks in a holder

1

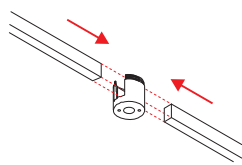

A: Base part
B: Plate part

Unscrew Parts A and B from the track holder.

2

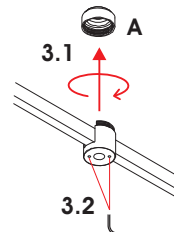

Carefully place the tracks through the holder.

3

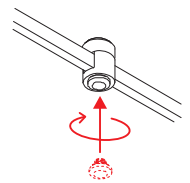

Attention!

Ensure that the two tracks are evenly aligned in the holder. Then, screw Part A back on and tighten it carefully.

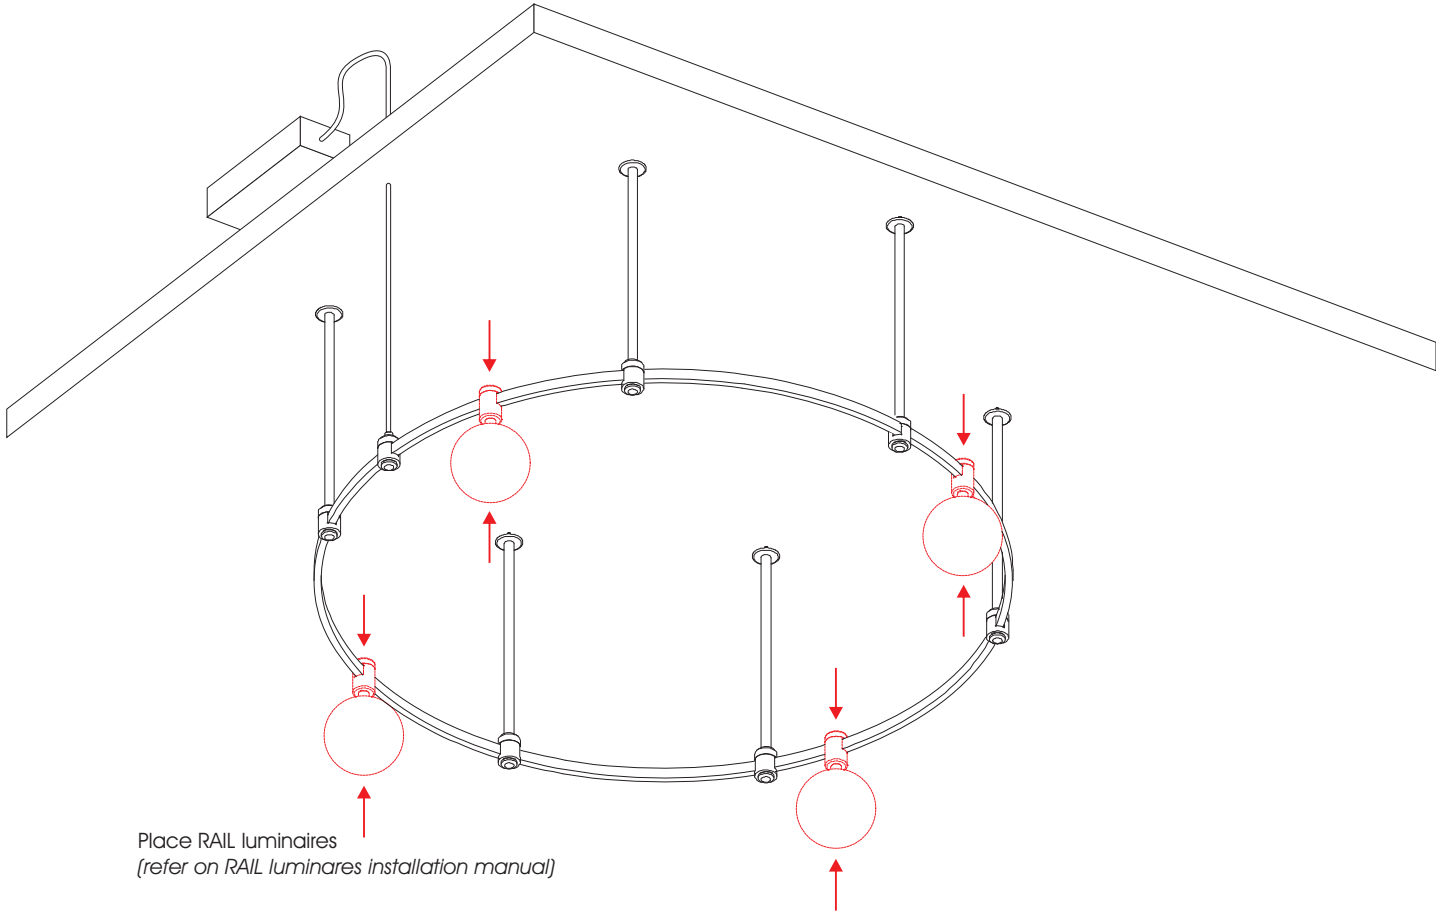

Secure the tracks by tightly screwing the Allen screws.

4

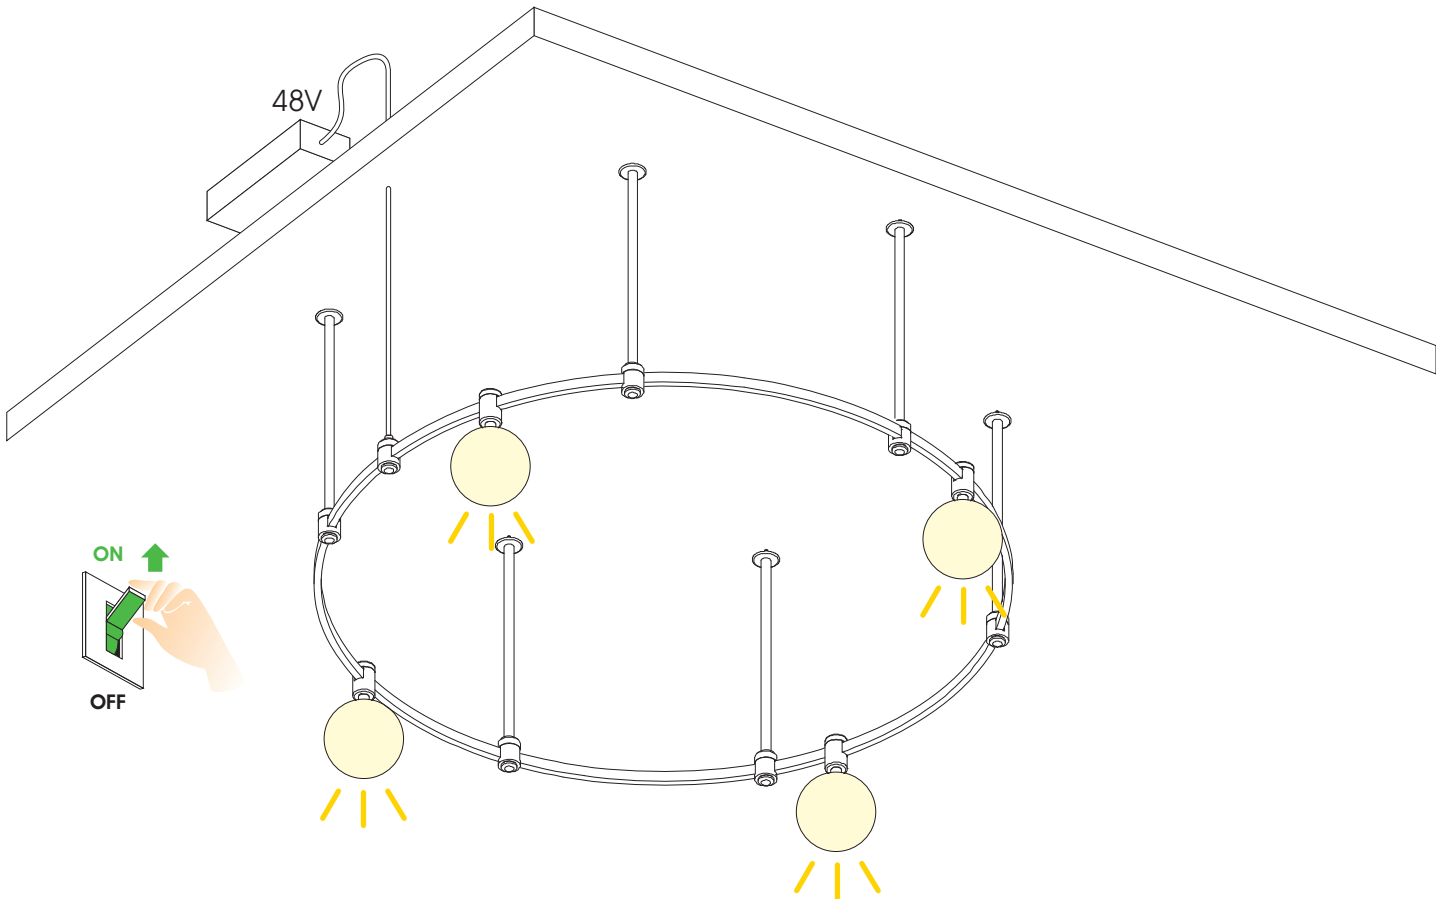

Finally place back on part B.
